**DNI KARPIA**

**DOLINA BARYCZY**

Carp days became a  
**well known brand**

We learnt that we have been given  
unique possibility to live in an  
**extraordinary place**. Our  
responsibility but also a pleasure is  
to care for the **nature** – plants,  
trees, fishes, birds, other animals. It  
is our heritage and our gift for next  
generations. We know that we all  
have to work hard for the nature but  
also care for the people – their  
**social life and economy**.

# Thank you for your attention!
